#### To Sam Marshall or whoever it concerns:

This letter is to inform of an addition on my existing farm. At this time I have two 42 by 400 foot barns that hold 21,000 birds a piece and two 50 by 500 foot barns that hold 31,300 birds a piece. A total of 104,600 birds. These four barns produce around 740 tons of manure a year. This litter goes to a farmer in our area for his row cropping operation. I do not spread any litter on my farm. The dead birds are composted in an approved composting barn. It is 48 by 54 feet in size.

I am in the process of adding an additional two barns. The size of these barns is 55 by 600 feet. They will hold 41,300 birds. These birds will produce about 580 tons of manure a year. This will put my total of birds to 187,200 a grow out, roughly 1,123,200 birds a year. My litter tons will rise to 1,320 tons a year. This extra litter will go to the same row cropper as well. There will be another approved compost barn built for this addition of barns.

I already have a large size CAFO permit. I got it a few years ago for future expansion and now the time is here. My permit number isTN0080306. Here is my contact information. Dustin Lambert, 547 Smith Road, Bell Buckle, TN 37020. My phone number is 931-580-2674. A closure plan is included. Thank you.

**Dustin Lambert** 

Erin,

This is not an approval of a new application, merely

This is not an approval of a new application, merely

the approval of Mr. Lambert's notification of changes

to his farm and the operation of his farm after the

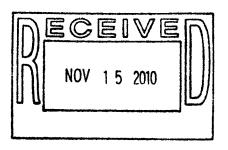

changes take place. Please let me know if you need

changes take place. Please let me know if you need

anything else from me.

Sawn

11/19/10

### To whom it may concern;

Should I decide to sell out or cease operation of my chicken business anytime in the future, I agree to dispose of any remaining litter and/or compost in an environmentally safe way, in accordance with all state rules and regulations.

Sincerely,
